

Renesan Software Achieves 2014 Edition Health IT Certification

California Dec, 7th 2015

California – Dec 7, 2015- Renesan Software, a leading provider of electronic health records, has achieved 2014 Edition Complete Ambulatory EHR ONC Health IT Certification for its Renal Manager Version 5.0, which designates that the software is capable of supporting healthcare providers with Stage 1 and Stage 2 Meaningful Use measures required to qualify for funding under the American Recovery and Reinvestment Act (ARRA). Renal Manager Version 5.0 was certified by ICSA Labs, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB) and is compliant in accordance with the criteria adopted by the Secretary of Health and Human Services (HHS).

"This is our great achievement and joy to have been awarded with the **2014 ONC-HIT certification**. This certification validates our commitment towards helping end-users achieve Meaningful Use, while incorporating advanced specialty content and workflows. Our goal is to help dialysis units and access centers to become completely paperless by using our EHR without disrupting their current work flow. Our applications help renal health care professionals to capture data easily from various sources (including dialysis machines and labs), provide timely information to billing and other applications, and report selected data to networks. In addition to this our software helps dialysis units and access centers in maintaining a proactive continuous quality improvement program to improve overall outcomes and quality of patient care."- Neeraj Sinha, CEO of Renesan Software

"ICSA Labs congratulates Renesan Software for successfully achieving EHR technology certification," said Amit Trivedi, healthcare program manager, ICSA Labs. "Renesan Software users can now qualify for CMS incentives for Stage 2 Meaningful Use."

Renal Manager Version 5.0 certification number is: 150126R00. The product meets the Complete EHR certification criteria as an integrated All-in-One solution. The clinical quality measures to which Renal Manager Version 5.0 has been tested and certified includes: CMS#50v2 CMS#68v3 CMS#69v2 CMS#122v2 CMS#123v2 CMS#127v2 CMS#138v2 CMS#156v2 CMS#165v2.

About Renesan Software

Renesan Software is a leading provider of software in the renal (kidney dialysis) segment of the health care information technology industry. Renesan's advanced EHR (Electronic Health Record) applications provide comprehensive solutions for capturing and managing data generated in dialysis clinics, access centers, physician offices and hospital-based dialysis units..

About the ONC HIT Certification Program

The ONC HIT Certification Program, provided by the Certification Commission for Health Information Technology (CCHIT®) as an Office of the National Coordinator – Authorized Certification Body (ONC-ACB), evaluates EHR technology that has been tested against criteria and standards adopted by the Secretary of Health and Human Services (HHS). This certification qualifies EHRs as capable of supporting achievement of meaningful use for the Medicare and Medicaid EHR incentive programs authorized by the American Recovery and Reinvestment Act of 2009 (ARRA). ONC HIT certification conferred by the Certification Commission does not represent an endorsement of the certified EHR technology by the U.S. Department of Health and Human Services.

Legal Disclaimer: This EHR module is 2014 Edition compliant and has been certified by an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services. Renal Manager V 5.0 was certified on Dec 7, 2015. CHPL Product Number: 150126R00
